

Absences

All scheduled absences need to be approved by the treatment team at least one week ahead of time. No absences will be approved for participants in phases 1 or 2. Each participant is required to call the program coordinator three (3) hours before group starts if they are sick and unable to attend group that evening. A doctor's excuse is required to be turned in to the treatment provider the next day of group for each day called out sick.

Absences from court sessions are not tolerated and may result in immediate sanctions. Protocol states that participant is subject to serve two (2) days incarceration for every one (1) unexcused day missed of court or treatment sessions
