

CHEMICAL TESTING

You will be drug tested randomly throughout your entire participation in the Drug Intervention Program.

- You will be observed to ensure freedom from errors.
- If you miss a test, it will count as a positive (dirty) test.
- If you have a positive test in any drug court phase, the judge, based on recommendations from the treatment team, will apply immediate sanctions including time in jail to help you stop your drug using behavior.

Phase	# Tests/Week (Minimum)
1	3 Random
2	2 Random
3	Random

Two (2) random tests will be performed weekly by the treatment provider and the program coordinator. Participants will be given up to an hour to produce a specimen for testing - if you can't produce enough urine within the hour then the test will be termed a missed test.

Participants may dispute positive results. However, all positive disputed results will be sent to an approved laboratory for a retest on all drugs of abuse. In the event a disputed specimen is confirmed by the lab the participant will be responsible for the cost of retesting (\$9.50). The lab will transmit back to us written confirmation on each test detailing which drugs are present and an approximate quantity level.

One (1) random test will be performed on Saturday at the local Urgent Care on North Main Street. Call the office at (770) 387-5480 after 8:00 am to see if you are required to report. Your name will be listed on the recording if you have been selected for testing. The Urgent Care closes at 4:00 pm, don't be late.

Failure to appear or refusal of a drug test will automatically be considered as testing positive. **Any efforts to dilute, modify, substitute, or alter specimen in an effort to pass a drug screen will be considered an automatic positive.**
