

### **Inclement Weather**

During the winter months, some participants may experience difficulty attending a session due to ice and snow conditions. The Drug Intervention Program will generally follow open/close guidelines set forth by the Polk County School System. Participants should listen to the radio/TV to determine whether the schools are closed that day. If the schools are closed, participants are excused from attending scheduled court sessions or group treatment sessions that day. Notations will be made in each participant's record to reflect weather absences.
