

Participant Fees

Each participant is financially responsible for a fee associated with the drug intervention program. The program fee of \$1,200.00 is payable monthly over the length of the program. Participants must pay fees by cash, certified check, or money order to the program coordinator prior to the monthly court sessions. No personal checks are accepted. Failure to pay fees may result in sanctions. A database will be kept that tracks all payments made by participants, and their current balances due. If the participant faces a financial hardship and has problems meeting financial obligations, it is the participant's responsibility to notify the program coordinator who will then report this issue to the treatment team for discussion. All program fees must be paid in full before eligible for graduation from the program. Exceptions will be made on a case by case basis depending on individual circumstances.
